LIBRARY RESOURCES ON NET ACCESS

The Medical Library has collaborated with the Department of Computer Services to incorporate links for several of the Library's resources into the Net Access medical record system. Users can now access knowledge-based information to assist in making clinical decisions at the point of care, without having to leave the patient's record. Users in clinical areas will need to enter their LSUHSC e-mail username and password to access these resources.

The Library resources that are directly accessible were chosen because they are most relevant to patient care. They include **DynaMed**, **Harrison's Online**, **MDConsult**, **Nursing Consult**, and **UpToDate**. Access is also provided to **healthelinks**, the Library's consumer health website, to facilitate patient education.

For additional information or assistance, contact Julia Esparza at 54179.

PREPARING FOR AN ACCREDITATION SITE VISIT?

Library faculty can customize a class for your residents that will assist in fulfilling the competencies in practice-based learning that are required by the Accreditation Council for Graduate Medical Education. If your residency program is currently preparing for a site visit, we can provide a description of the class learning activities for your accreditation forms or assist you with any questions about library resources in your required documentation. Contact Kim Pullen, Library Liaison Coordinator, at 55447, for more information.
